TO WHOM IT MAY CONCERN

I have known Robert Donald for many many years. I met Robert again when my son Michael purchased an Apartment at ELEVEN in Mt Maunganui off the plans, before building commenced. When Michael showed us through his finished apartment we were so impressed by the quality, location and views my wife and I purchased the Penthouse in the same complex.

Of special mention are the common areas of this complex – the Lobbies and Lifts have a particular welcoming appeal that seem to be a standout feature of his design. Robert is passionate about his projects and likes to be involved from inception to completion of any building project he undertakes.

We are very contented owners of our apartment at ELEVEN, Mt Maunganui and go there as often as we can.
